#### Data Flow Diagram:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Example: DFD Level 0 (Industry Standard)

## User Stories

Use the below template to list all the user stories for the product.

| User Type               | Functional Requirement (Epic)    | User Story Number | User Story / Task  | Acceptance criteria   | Priority | Release  |
|-------------------------|----------------------------------|-------------------|--|---|----------|----------|
| Customer (Webuser)      | Login                            | USN1              | As a user, I can use the webpage to know the delay rate of flight.   | I can get to access my web portal                                 | High     | Sprint-1 |
|                         | Dashboard                        | USN-2             | As a user, I can get to know how much time my flight's delay is in.  | I can get to know the delay rate.                                 | Low      | Sprint-2 |
| Customer Care Executive | Delay analysis                   | USN-3             | Aviation industry which owns this airplane analysis system will enable the option to customers to reach out the organization if <ul style="list-style-type: none"><li>there is any delay issue.</li></ul> Prediction of delays is the main concept here.       | The customer care workers will help the customers in trouble.     | High     | Sprint-1 |
| Customer Care Executive | Delay analysis-Report generation | USN-4             | The analyzed report is then sent to the airlines aviation industry for the customers to get to know the delay status.<br>The DGCA(Directorate General of Civil Aviation) will get to know the delays of flights and redirect safely with high customer safety. | The customer care workers will provide the users with the report. | Low      | Sprint-2 |
