Project Design Phase-I
Proposed Solution Template

Date	19 September 2022
Team ID	PNT2022TMID17847
Project Name	Project - AIRLINES DATA ANALYTICS FOR AVIATION INDUSTRY
Maximum Marks	2 Marks

Proposed Solution Template:

Project team shall fill the following information in proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	• Reduction of the causes of the flight delay. • Passengers not knowing the status will be solved
2.	Idea / Solution description	• Grouping of the efficient data to reduce delay of the travel period.
3.	Novelty / Uniqueness	• There can be no solution to flight delays with prediction in the web portal itself. Hence can be predicted well efficiently.
4.	Social Impact / Customer Satisfaction	• Passenger satisfaction is obtained. No passenger undergoes discomfort during travel or post or pr-travel traumas.
5.	Business Model (Revenue Model)	• This solution can be implemented in various government and private sectors which helps enabling predictive measures.
6.	Scalability of the Solution	• This solution would be highly scalable for any platform implementation and application.
